

A-TA-TI

Organic Wellness Spa at Mae Jo Golf

Chiang Mai is famous for its golf courses and spa facilities. At *Mae Jo Golf Club* it has all come together in one place. Situated in the midst of an orchard with flowers and trees producing fruits the year round and stunning flower displays, the golf course, with the resort and spa, is imbued with a sense of serenity and peacefulness. The grass looks like soft green velvet stretching out just waiting for you to get out there, and the atmosphere is so calm and soothing that you will get the sensation of being in a different world. The spa is the latest addition to this outstanding establishment. It completes the picture of what a stressed out person might need to relax and get their strength back.

A-Ta-Ti Organic Wellness Spa at Mae Jo Club understands what the customers want. The surroundings speak to all your senses: the aroma of the flowers and oil used, the soft music, the decor of the treatment area and the stunning view from the windows. It is all there, to make you relax and be prepared to be pampered. It is amazing the way aroma and touch combined makes one feel so good, almost emotional. Cream and oils used at the spa are all produced at the orchard and totally organic, they are designed to provide forth the best anyone could wish for.

The signature package at *A-Ta-Ti* is a 3 hour trip to heaven. It starts off with your feet being scrubbed with fruits from the orchard, then a shower using oils also produced at the resort. Then you are in for the main course. The massage is like you might not have had before. You have a choice of soft, medium or hard massage, and the hard is absolutely recommended. The therapists at the spa really do know what they are doing. You will feel the tension ease, a sense of well being creeping in, and when it is completed with the oil massage, it will feel like you have been reborn. The dessert is the facial deep cleansing with aloe vera, and you get off the bench, genuinely rejuvenated and refreshed. The service is impeccable, so polite and caring. Throughout the whole session the therapist makes you feel safe, comfortable and at ease. Finish off your adventure at *Mae Jo Golf Club* with a good lunch or, even better, a dinner in these beautiful surroundings, it is truly a journey your body and soul will benefit from for a long time...
